Give us a choice!

Royal Sussex County Hospital Transport Petition

We, the undersigned, welcome the redevelopment of the Royal Sussex County Hospital but believe that it should not be approved until the proposals are modified to reduce the traffic impact. The hospital trust should be required to invest at least the same amount of money as it is spending on the new underground car park, on walking, cycling and public transport measures. Only by doing this will visitors and staff be given a real choice of travel, and congestion and air pollution will be minimised.
